

ADD MORE LIFE TO YOUR CAR. TAKE IT TO THE STAR.

## Havoline

FORMULA 3

High speeds accelerate high-tech thinking.

The proof is in products like Havoline Formula<sup>3</sup>, the motor oil in the Texaco/Havoline Ford Thunderbird Dale Jarrett and Ernie Ivan race. Team owner and engine builder Robert Yates gives specific feedback to our product development engineers. Newman-Haas Racing also relies on Havoline Formula<sup>3</sup> in the Kmart/Texaco/Havoline Indy Car. The relationship has brought two national championships since 1989 – more than any other team over that period. All without a single oil-related engine failure. Which means Michael Andretti, Paul Tracy and Mario Andretti also depend on the same motor oil you can use in your car. Motor oil formulated by the people who make Texaco Anti-Freeze Coolant and CleanSystem<sup>3</sup> Power Plus and Power Premium gasolines. For cars that can benefit from higher octane, Power Plus and Power Premium are formulated to clean an engine's intake valves, fuel injectors and combustion chambers for smooth starts and sure acceleration. The Bondurant School of High Performance Driving uses CleanSystem<sup>3</sup> Power Premium gasoline in its cars. Which makes us think no one else can provide more complete protection than we do. If you have any questions or comments about the Texaco/Havoline Racing Team, write to Mario Andretti, our Products Performance Adviser, at P.O. Box 3472, Houston, TX 77253-3472.
